SUMMARY

Software Engineer with ~2 years of hands-on experience building scalable web applications using **ReactJS**, **TypeScript**, **JavaScript**, **HTML**, **CSS**, and the **MERN** stack. Strong foundation in Data Structures, Algorithms, and C++. Experienced with **Webpack**, **Redux**, **Node.js**, **Jira**, **CI/CD**, and modern development workflows. Proven ability to understand product requirements, lead modules independently, solve complex problems, and deliver clean, efficient, and scalable code. Detail-oriented, customer-focused, and driven by continuous growth and ownership.

EXPERIENCE

TecUnique Pvt. Ltd.

Jr. Software Engineer | July 2024 - Present
Full Stack Developer Intern | Dec 2023 – June 2024

- Led the end-to-end development of a scalable internal product integrated with Jira, built using **React** and **TypeScript**, delivering a seamless and intuitive user experience.
- Actively contributed across the entire product lifecycle — from market research, requirement analysis, and specification writing to implementation, testing, and release planning.
- Implemented **Context API** and **TanStack Query** to streamline state management and data fetching, minimizing redundant **API** calls and enhancing client-side caching efficiency.
- Refactored and optimized core modules, improving application load time by 70% and significantly enhancing responsiveness and performance.
- Collaborated closely with stakeholders and cross-functional teams to define and refine product features aligned with user needs and industry standards.
- Automated **CI/CD** pipelines using **Bitbucket Pipelines**, cutting deployment time and ensuring faster, more reliable releases.
- Consistently contributed to **code reviews**, **architectural discussions**, and **documentation**, fostering maintainability and scalability.

EDUCATION

B.Tech Computer Science & Engineering CGPA 8.75/10
Parul University
2020-2024

SKILLS

Programming Languages:	C, C++, HTML, CSS, JavaScript, TypeScript, Python
Frontend Development:	ReactJS, NextJS, NodeJS, State Management (Redux, Context API, Zustand), UI Libraries (Material UI, Tailwind CSS), TanStack Query (React Query)
Backend Development:	NodeJS, ExpressJS, Databases (MongoDB, Firebase, PostgreSQL)
Version Control & Deployment:	Git, GitHub, Bitbucket, CI/CD (GitHub Actions, Bitbucket Pipelines)
UI/UX:	Figma, Responsive Design
Soft Skills & Agile Development:	DSA, Agile, SCRUM, JIRA, Confluence, Communication, Documentation, Problem-solving, Teamwork

PROJECTS

Ecommerce Platform

[React.js](#), [Node.js](#), [Express.js](#), [MongoDB](#), [REST API](#), [Axios](#)

- Designed and developed a full-stack eCommerce platform with authentication, product filtering, and API integration.
- Optimized API requests using **Axios** & caching, reducing load time by 30%

Resume Builder

[React.js](#), [Tailwind CSS](#)

- Developed a dynamic resume builder allowing users to create resumes using predefined templates with the ability to add, edit, or remove sections for full customization.
- Customizable sections with live preview functionality.
- Designed a responsive, intuitive UI using **Tailwind CSS** for a smooth user experience.

CERTIFICATIONS & ACHIEVEMENTS

Published research paper: *"Towards a Decentralized Future: The Role of DeVerse in Publishing Evolution"*, IEEE Xplore, 2024. [Link](#)

Web Development Bootcamp, 2023: Completed an intensive full-stack web development course covering HTML, CSS, JavaScript, React, Node.js, and MongoDB. [Link](#)
